

Cottage 4: Hillside Retreat is our Pet Friendly Cottage

We know at the Tomahawk Resort that our furry friends are family members too. That is why we have one pet friendly cottage option. Please let us know ahead of time if your furry family member will be accompanying you on your trip. Failure to do so could unfortunately cause problems at check in with only the one pet friendly option available. Please also adhere to the following guidelines provided:

Pets are defined as domestic dogs and cats. For the comfort and safety of our guests we only offer this cottage as pet friendly. Pets can enjoy lake access to the west side of private pier. There is a \$100 pet fee per week. Additional fees may apply if deep cleaning is needed or repairs need to be made due to stains or damage to any part of the cottage.

If your pet is left alone inside the cottage they must be crated. Crates are not provided. If your pet likes to be on the furniture or bed, please bring throws to protect furniture. It is the responsibility of the pet owner to properly dispose of all litter and pet waste. We are glad to supply the bags for you to clean up after your dog. We are not glad if we have to clean up after up after your dog.

The pet owner and/or registered guest accepts full responsibility for and liability arising from the pet (including but not limited to property damage to the resort or personal injury to guests, associates or third parties).

Pets must either be on leash or under voice commands. We want your time at Tomahawk Resort on Lake Alice to be successful. It is important to respect the space of others and their vacation quality. Please be sensitive of other guests. For quiet and comfort of all guests please ensure your pet does not disturb the stay of any other guests. This includes barking and unwelcomed approaches. If you or your pet are causing a disturbance, we can ask you to leave with no refund.

Please do not surprise us by bringing an unannounced pet. Your pet maybe refused access to the property. Please let us know ahead of time when traveling with a pet.

We hope to always remain a pet friendly resort.
